STRIKE OF THE WEST SIDE STREET CAR COMPANY'S EMPLOYEES.

No Agreement Was Reached with President Yerkes and the Men Voted to Tie Up the Rend-Turbulent Scenes in Seaman's Hail-Proffers of Financial Aid-Police Force to Be Greatly Increased To-Day.

CHICAGO, Oct. 9.—The West Side street-care are tied up this morning. The last car reached Madison and State streets at o'clock and arrived at the barn at 5 o'clock. Not another wheel will be turned.

An all-night session of the West Side Conductors and Drivers' Association was begun towards midnight in Seaman's Hall.

Committees representing the North and South Side men were present. The South Side men urged the West Side men to stand firm and promised them moral and financial support.

At 3.50 the committee which was sent to Mr. Yerkes with the propositions of the men returned to the hall.

George Roperback made known to President Coyne Mr. Yerkes's answer, which was in effect that he would give the men his reply

"in the morning."
Luke Coyne asked the men if they were willing to wait any longer.
A shout of "No" went up which fairly

shock the hall.

Coyne then put the proposition to strike and it was carried unanimously finid the greatest excitement. The men were simply wildly hoisterous. They threw their caps in the air and shouted themselves hoarse.

The men insist upon 25 cents per hour for gripmen, 23 cents for trail and grip conductors and 22 cents for horse-car men. Mr. Yerkes, it is understood, offered 20 cents for horse-car men and 31 cents for the strike for contract of the strike of the strik

horse-car men and 21 cents for grip-car men.
In anticipation of a long struggle and to guard against possible outbreaks the police force is to be greatly increased.

A large force of patrolmen will be distri-buted over the West Side to look after the railroad company's property.

At the East Fifty-first street police station, the prisoner, who proved to be a deat mute, described himself as Lawrence Harris, a painter, of 411 East Thirteenth street.

When arraigned before Justice White at the Yorkville Police Court this morning, Harris was identified as Morris L. Pike, an ex-convict, who has quite a history. He was in company with Highwayman O'Donnell when that desperado tore the diamond pendant from the ear of Mrs. Du Barry in broad daylight some years ago. He escaped punishment for his connection with that crime, but served a five years' sentence for a robbery committed in Billy McGlory's that crime, but served a five years' sentence for a robbery committed in Billy McGlory's diva.

(SPECIAL TO THE EVENING WORLD.)
HARTFORD, CORE., Oct. 9.—John M. Foote, o Northford, was recently bitten by a copperhead anake three feet long. He hurried off to a doctor, who cut the finger open all about the bits and applied carbolic acid, and had Mr. Foote drink several half-tumblerfuls of undituted wasker. Mr. Foote experienced no trouble from the bits other than a severe soreness in the hand, which is now nearly well.

The Tammany Hall chiefs say that Mayor Hewitt will not receive 20 per ceut. of the Republican vote, and that if the Republicans name a strong candidate for Mayor, Hugh J. Grant will be elected.

THE VOTE WILL BE A BIG ONE

FIRST DAY REGISTRATION INDICATES A GREAT INCREASE.

Evidence that the Pleating Vote Is to Be All Brought Out This Year-A Rumored Charge of the Equal Rights Brigade Did Not Materialize - Great Rush for the Downtown Registration.

Politicians have long been counting upon vote in this city at the coming election tha will knock all previous records into a cocked hat. From the observations taken by an EVENING WORLD reporter on the morning of the first day of registration it may be said, with a good deal of confidence, that these predictions of the politicians regarding the size of the vote this year bid fair to be amply

Whether it was the bright, sunny weather and the cool, bracing sir that brought the people out so early, or the unusual interest in the campaign now in progress, it would be difficult to say. the poll clerks and election inspectors had so
much business to attend to so early in the
morning on the first day of registration.

The increased liveliness among the voters
was particularly noticeable in the uptown
districts, where it is the usual thing for them
to wait at least until the second day, and in
a great many instances until the last, before
they duly record their intention to cast their
ballots.

This was a fine thing for the Boards of

This was a fine thing for the Boards of Registry, and the young men who kept the books used to have great times sitting around the stove, smoking and swapping stories and entertaining the various "coppers" who dropped in during the day with spicy yarns and the latest political gossip. At five consecutive bureaus of registration above Twenty-third street visited by The

Evenino World reporter this morning it was said that this morning's registration up to that time was from 10 to 15 per cent, higher than it was in 1884, when the heaviest registration over known in this city took place. A great many houses where a few years ago there were only two or three voters, turned out five or six now. This was especially true of the boarding houses, showing

that the floating population was going to get in its vote this year with a vengeance. On the other hand, right around Mayor Hewitt's residence there was reported to be a falling off, and Gramercy Park was away below its record in the matter of registration. However, if the average of the first two or three hours of the morning holds goods dur-ing the day the returns will show an as onish

Downtown, there was the usual rush as soon as the registering places were opened. For the great majority of the laboring population, that is the only hour when an opportunity for registering can be found. The clorks had all they could attend to, and it was not until it got well on towards noon that they had a chance to knock off and take a breath, especially over in the crowded east side tenement-house districts. The indications are favorable for an overwhelming Cleveland and Hill vote in the downtown wards, and as for the uptown districts, knowing ones about the Democratic Headquarters are confident that the increased registration means a corresponding gain for

It was reported this morning that the Woman's National Suffrage Association was going to make another desperate effort to assert its rights. Itumor said that a number of the more daring and case-hardened members were going to assemble at some place in Fourieenth street at any early hour, and after thoroughly arranging their programme would sally forth in a body, raid the nearest registration place, capture the books and papers, intimidate the clerks and compel the latter to register them by sheer force.

The rumor could not be verified, however, and the mysterious place of meeting could not be discovered, although several of Inspector Byrnes's detectives were said to be on the still hunt for the prospective law-breakers and buildozers. It was reported this morning that the

had been the policy of the Association for the past two or three years to make some practical effort in the direction of female registration, it was only for the purpose of gaining a certain point.

This having been done no effort would be made this year by the ladies to register. On the contrary, attention would be devoted exclusively to the country districts, where there was a good deal of voting done by women last year, and efforts would be directed towards increasing this vote.

People reason that though the roadsculler is not a rowing shell, and an eighth-mile track on the floor is not exactly like a threemile course with turn on the water, the oars men engaged in this contest are first-class men in their profession; that they are exer-cising the same muscles as if they were in their shells, and that the chances of accident are similar and as numerous as in a race on the water.

A STARTLING THEORY

Is It "Dr. Jekyll and Mr. Hyde" in Real Life?

Whitechapel's Mystery May Have

an Astounding Sequel.

London's Detectives Said to Be Working on an Extraordinary Clus.

ISPECIAL CARLE TO THE EVENING WORLD, I LONDON, Oct. 9. -I am informed by a gen-

leman, who stands in close relations at Scotland Yard, that several of the leading detectives have thrown over the clues and ideas beretofore taken up and are working on an entirely new and most remarkable theory.

This theory is that the borrible crimes which have so disturbed the city and interested the entire world are the result of a case in real life of "Dr. Jekyll and Mr. Hyde." Furthermore, the detectives believe that the existence of such a case is directly attributable to the excitement and morbid reflections caused by a mind dwelling upon the circumstances detailed in the story and play just

Parallels are ingeniously drawn between he acts of the Whitechapel monster, who not only kills but mutilates his victims, and the frenzied brutality with which the Mr. Hyde of the fiction stamps upon the girl, whom he knocks down and injures in the deserted and echoing streets at midnight, as told in the first part of the book.

Not only have the police been brought to this astounding position, through what they claim is direct evidence corroboratory of such a theory, but they are industriously working with a particular individual in view, and they believe that they are truly upon the right

with a particular individual in view, and they believe that they are truly upon the right track. If it be so, London is promised for a not far distant future a sensation of such magnitude that the tragedies leading to it will sink almost into insignificance beside it. My informant tells me that a well-known, prosperous resident of Grosvenor square is the man thus under police surveillance. He moves in the best of society and is completely removed from derogatory suspicion among those who are his daily associates. This man, however, as I am assured, has been tracked and traced until it is absolutely established that he does lead a double life. This Dr. Jekyll lives for the eminently respectable world in which he moves. The other self, like Mr. Hyde, lives mysteriously, revoltingly. This latter self has been tracked to the Whitechapel district, and has been seen, in its form of a man, skulking stealthily about dark corners and alleys, or stalking moodily through deserted side streets.

This duality of life and conduct established it remains, of course, to positively connect the subject with the deeds of which he is suspected, and this, at least one leading detective, has hopes of accomplishing.

Of course there are some who scoff at the sensational theory, and allege that at the worst the Grosvenor square Dr. Jekyll visits Whitechapel in curiosity and perhaps with a desire to apprehend the murderer other thau to commit a murder. But I send the information for what it is worth. The story is certainly interesting and striking, and not half so improbable as many of the absurd clues that the police have followed in these cases.

Great secrecy is maintained by the police

WHEAT GOES UP AND DOWN. Meanwhile Newark Bakers Raise the Price of Brend.

The wheat market opened much lower this morning. Private despatches to the New York speculators from Chicago said that 'Old Hutch" was disposing of his holdings as fast as possible, and those who are said to be his agents in this city were closely watched.
The news from Liverpool was also rather

bearish, and when the market opened \$1.18 to \$1.17½ was bid for December options against last night's closing quotation of \$1.20½. The quotation settled at \$1.18½, and for a short time the fluctuations were confined to from ½c. to ½c. around that figure. Later on, however, the quotation dropped to \$1.16%.

After that the hands on the dial marked all the way from \$1.17% to \$1.16%, and back

the way from \$1.17½ to \$1.16%, and back again.

At noon \$1.17 was bid. May opened \$1.20 to \$1.23, against \$1.24, last night's closing quotation, and settled at \$1.23. Subsequently the quotation declined to \$1.19½, but advanced to \$1.20%, at which figure it was quoted at noon. The trading was light. In Chicago, December opened 1½c, off at \$1.17 and declined to \$1.15. May opened 2½c, down at \$1.17½ and fell to \$1.15½. Later on the quotation advanced to \$1.15½. At a meeting held last night, 250 bakers of Newark decided to raise the price of bread one cent a loaf.

TWO MEN AND TWENTY-SEVEN HORSES

Four Flimsy Stables Caught Fire in the Early Morning-There Was Delay in Opening the Fire-flex and the Buildings Burned Like Tinder-One Man's Body Found in the Ruins and Another Will

A fire, by which one man has already lost his life and in which twenty-seven horses also died, occurred in East Thirty-fourth street

When the firemen and a citizen named

static with the intention of starting downtown at 1.30 o'clock for their supply of morning papers.

Roach lived at 323 East Thirty-second
street, but Carr's address could not be
learned. It seems that up to two months ago
he lived with his mother in Greenpoint. For
some reason unknown he ran away and came
to New York.

How the fire originated is a mystery. It
started in the rear of Maguire's stable, at 404,
and spread until the whole place was a seething mass. The clang of the fire bells brought
the tenants of the nearby tenements to the
windows, but they saw that they were in no
immediate danger and a panic was averted.

When the fire started there were twentyseven horses in the place. One escaped, but
died a few hours later. The building was
occupied by cab and truck owners, and
their losses aggregate \$10,000, estimated as follows: Michael Maguire,
\$3,000; Henry Korminsky, \$3,000; Edward Donohue, \$1,500; Daniel Mahoney,
\$2,000; William Barry, \$300; Thomas Maguire, \$300. Michael McDermott, \$300; John

The exact number of cabs and trucks lost could not be ascertained. The Avenue B Railroad Company lose \$50 on the starter's office which was critted.

The building was owned by D. D. Withers, the noted turfman, and he will lose \$1,000.

At the Bellevue Hospital at noon Dr. Leyton, who has charge of Roach, reported the his patient was still alive, but he entertained no hope of his recovery.

He Will Marry Miss Mirium Blauvelt in Brooklyn To-Day. Carroll Tilton, the son of Theodore Tilton, will be married late this afternoon to Miss

The ceremony will be performed by the Rev. Dr. Richard Storrs, at the residence of the bride's parents.
